

Zombie Syndrome: A Space Horror Novel

Zoe, a gifted telepath aboard the Odyssey space vessel is awakened to the sounds of screaming. The crew has succumbed to the deadly alien parasite which they picked up on a remote desert planet. Barely surviving the ordeal, Zoe utilizes the freezing chambers in the cryogenics laboratory and sends out a telepath distress call to anyone nearby. Light years away, Ida, a failed telepath aboard the salvage ship Argo hears the call and alerts her captain. Fearless, Captain Titus heads for the ship, promising his crew excessive credits for the missing vessel. But as they board the Odyssey they failed to realize it had been taken over by an alien species using humans as a host. Prepare for deep space horror, thrilling adventure, a malfunctioning Salvation robot, plasma sabers, and spider parasites capable of turning humans into flesh hungry zombies.
