

The Adjustment: A Novel (The Adjustment Series)

Has a modern day plague finally arrived? First came AIDS, then Ebola, then the SARS and Swine Flu scares. Now there's HADES...there hasn't been a killer like this since the Plague. Modern medicine is defenseless against it. Thousands are dying with no end in sight, and nothing seems to stand in the wake of its destruction. An almost imperceptible trend is spotted, a small number of people who were exposed to HADES but did not die. From there an unlikely profession is enlisted to help this country navigate through the worst catastrophe it has ever seen. This is more than a novel...it predicts the future as we see the signs of our modern healthcare system falling apart. Obamacare, the Affordable Care Act, and the apps and technology in the world cannot stop the tidal wave of death...but one thing can: The Adjustment.
