

## Corn Rose

Rose Calamia is a first generation Italian American working girl in a 1945 aircraft plant, when she meets Iowa farm boy, Jack Conner. Jack has recently been discharged from the Army and is still licking his wounds from an all too familiar war time casualty--a Dear John followed by divorce. When their love affair leads to a wedding and a move to Jacks home community, Rose is totally unprepared for the life that awaits her in rural Iowa. Ever the sheltered daughter and sister in a family steeped in old world traditions, Rose is exposed to Jacks world which is the polar opposite. Living with her in-laws for the first few months of marriage, Rose is homesick and unsure of her hasty decision to move back to the Midwest with her husband of three months. On top of all the other adjustments (no modern conveniences like electricity and indoor plumbing) Rose harbors a secret, her pregnancy. Her mother-in-law, Bess is determined to sabotage Jacks marriage to this skinny foreigner and city gal, whose skin is dark and ways unlike any shes familiar with. Roses determination to endure and love her husband is tested when she is called home for her mothers funeral. Once back in warm, sunny California -- Iowa, Jack, and the harsh Midwest seem worlds away. Rose has to decide if what she wants is in Iowa with her husband or in the comfortable surroundings of California and family --and an old flame who awakens her heart in ways she thought were dead. Roses struggle, like so many women of her generation, is a tug-of-war between what is expected and what desires are left over for her in the ash-heap of duty and subservience. Roses final decision will test her character and surprise her harshest critiques.
