

Lost Rights: The Destruction of American Liberty

From Justice Department officials seizing peoples homes based on mere rumors to the IRS and its master plan to prohibit the nations self-employed from working for themselves to the perpetrators of the Waco siege, government officials are tearing the Bill of Rights to pieces. Todays citizen is now more likely than ever to violate some unknown law or regulation and be placed at the mercy of an administrator or politician hungry for publicity. Unfortunately, the only way many government agencies can measure their public service is by the number of citizens they harass, hinder, restrain, or jail. James Bovards Lost Rights provides a highly entertaining analysis of the bloated excess of government and the plight of contemporary Americans beaten into submission by a horrible parody of the Founding Fathers dream.
