

The fifth installment of I Remember You is set in Europe in the time of the French Revolution. Whether we like it or not, violence has been part of the human history. Derek tries to get closer to Alex, while she keeps having past-life dreams in a way that is unfamiliar to her. Derek also remembers his past life but is hesitant to share the information. In that past life, Derek and Nancy were brothers. They were both attracted to the same woman--their widowed stepmother. This is the second last Book (installment) of the series, written by Akemi G, author of Why We Are Born: Remembering Our Purpose through the Akashic Records. Join Alex, Derek, and Nancy as they explore the possibility of reincarnation and soul friends (more than soulmates).
