

Overwatch: A Thriller (The Logan West Thrillers)

A former Marine himself, Betley proves himself an able heir to the throne held by the likes of Brad Thor and the late, great Vince Flynn....Not to be missed (The Providence Journal).When Logan West impulsively answers a dead mans ringing phone, he triggers a global race against the clock to track down an unknown organization searching for an Iraqi artifact that is central to a planned attack in the Middle Eastone that will draw the United States into a major conflict with Iran. Logan, a former Marine officer, is quickly contracted as a consultant to assist the FBI as part of a special task force bent on stopping the shadowy operatives, whatever the cost. The battles are nonstop, from the plains of the Midwest, to mansions in northern Mexico, to the war-torn Al-Anbar province, pitting an international team against trained mercenaries employed by the worlds largest private security contractor...whose owner has a personal vendetta against the US government. Meanwhile, Logan is battling his own demons, especially the trauma of the ambush that his Force Recon unit suffered at an insurgent torture compound in Fallujah in 2004, which threatens to destroy everything he holds dear. With high-stakes and fully-realized characters, Overwatch is a thriller unlike any youve read before: deftly plotted, up-to-the-minute, and impossible to put down.
