

The Psychic Boy Detective

Dawn Reilly always knew that her twelve year old son, Sean, was an average, sports loving, game playing, and normal New York boy, but never a psychic. Suddenly Sean begins having psychic visions of murdered people whose killers have never been brought to justice. Sean is shown, through these troubling and graphic visions, the faces and evidence about these killers, and is asked to disclose all the related visual evidence and descriptions to the authorities. But something goes terribly wrong when the world learns of Seans newfound psychic abilities, and Sean is suddenly thrown into a life or death situation of his own.
