

Changes: A New Dawn Book 1 (A Werewolfs Saga)

A new beginning comes with Changes... Jimmy Walls was a very shy man. When his life turned upside down, he lands a job as a security guard at a local bio-research laboratory, and once there, his life changes forever. After being bitten by an animal that has killed several people over the last few nights, he must learn of the terrible secret hidden within the walls of the labs, and about the animal he is becoming before the next full moon.

A Werewolfs Saga

When the world began, the human race lived as nothing more than cattle. A great group of creatures ruled the world. A small band of humans with great powers emerged from the chaos, and with them, the human race fought for their right to live. When they won the world, the creatures turned to walk the night and the humans won the day. But in the shadows, the darkness lingered. A great evil lived and with it, the Black Wolf has returned a powerful being with something no other Werewolf or Vampire had ever possessed a soul.
